

Sporting Athletic Club Jersey Policies

At Sporting Athletic Club, we understand and know that the number you wear has great significance. One of our goals at Sporting Athletic Club are to provide the best player development pathway for all players and in doing so it means fluidity between teams and age groups. The best way to do this is having odd birth years wear odd numbered uniforms and even birth years wear even numbered uniforms. For example, 2010 players will wear even numbered uniforms and 2011 players will wear odd numbered uniforms. Below are the key points in Sporting Athletic Club making this decision:

- Club Culture
- Unique Numbering within Two Birth Years
- Player Movement
- Bio Banding ([What is Bio Banding](#))
- Duplicate Jersey Number Avoidance
- Cost Saving

This policy was made for the development of the players, to encourage the fluidity for players to play games on different rosters without limitations of jersey numbers. The jersey number selection process will be provided by each team's individual coach or director of the age group.

Sporting Athletic Club partnership with Adidas provides uniforms on a two-year cycle. New uniforms will be provided at the start of the 2023-2024 season.

Returning Sporting Athletic Club Players:

- Your jersey number will remain the same for the 2023-2024 season
- Any additional uniform items will need to be purchased individually
